

## Ephor Group, LLC Files for Arbitration Against LitCap

### *Potentially \$1.2 Million in Breach of Contract Obligations*

HOUSTON – (BUSINESS WIRE) – Today, Ephor Group, LLC filed for binding arbitration against Affiliated Solutions (DBA: LitCap) related to a breach of contract action which could potentially result in \$1,200,000 in damages plus additional legal and administrative fees. According to Ephor, the LitCap leadership team has repeatedly ignored numerous written and verbal good-faith attempts to resolve the matter.

The arbitration action against LitCap marks the first time, since its inception in 2002, that Ephor Group has been forced to address a business issue using a third party. “Ephor has a proud fourteen-year history of successful partnerships with our investors and clients,” said Ephor Group Founding Partner, Garry Meier. “It is very unfortunate that the LitCap leadership team left us with no other recourse but to involve a third-party arbiter. Both of Ephor’s law firms feel we have a very straight forward and meritorious claim. We are all confident that Ephor Group will prevail.”

“Ephor Group is publicly commenting on this matter because, in my opinion, the LitCap leadership team, led by Britton J. Holland, has failed to professionally communicate and attempt to resolve this matter,” said Ephor Group Director, Charles Bedard. “We feel an ethical obligation to qualified institutional investors to ensure accountability, transparency, and principled standards of behavior.”

### About Ephor Group, LLC
